Song Learning Method

(Easy, Accurate and Fast!)

The key to fast song learning is to use the brain efficiently. Notes and rhythms are learned in one area of the brain. Lyrics are learned in a completely different part of the brain. When picking up a new song, the brain is capable of reading notes, rhythms and lyrics all together by “cross-firing” rapidly from one brain area to the other. Though the brain can accomplish the task, it does not remember well when cross-firing.

Instead, a method that allows the brain to focus only on notes and rhythms, then separately on lyrics, uses brain power much more efficiently for purposes of memorization. Accurate song learning becomes easier and faster.

Method: balance the left and right channels of your stereo so your voice part on the learning recording is loud enough to be easily heard above the other 3 parts.

Listening Step—While following your voice part notes on the sheet music (if you do not read music, follow the notes visually by contour—do not read the words, follow the notes), listen to your part without singing 2 to 4 times through depending on difficulty. Listen extra times to places that seem tough or that do not seem to match what you see on the sheet music.

[The recording and sheet music are pre-checked and should match—if you do find an error, please notify the music committee.]

Doo-doo-doo Step—Sing “doo-doo-doo” on your part 2 to 4 times through. Follow the notes with your eyes (as well as your ears)—do not look at the words. Learn to match the pitches and rhythms of the learning recording. Set the recording louder than your “doo-ing” and let it lead your learning. Again, “doo” extra times on the tough places. If there’s a place too tough to get from the recording, see your section leader—do not “shrug-off” and rehearse mistakes. On the final doo-ing pass, set the sheet music aside and let the recording lead your ears to the right pitches and rhythms.

Muscle Memory Step—Stand and silently mime the song 2 to 4 times through with the recording. Breathe and support as if actually singing words and notes. Form vowels and consonants with lips and tongue as if you were singing a perfect rendition. Silently create the physical throat and larynx formations for accurate pitches and freely produced tone as if singing a perfect unison duet with the recorded voice. On the final muscle memory pass, set the sheet music aside and let the recording lead your ears to the right muscle memory patterns.

Full Singing Step—Put it all together and fully sing with the recording. Let the recording continue to lead your learning on the first run-through or two. Then, on successive reps, gradually shift the channel balance on the stereo until you are tuning your voice to the other three parts quartet-style.

[Sectional break-outs: First learning session 30 to 50 minutes depending on song length and difficulty. **Second “brush-up” session at next chapter meeting 15 to 25 minutes if needed.**]

Sing Canada Harmony Scholarship Application DEADLINE

by Bruce Wilton

The Sing Canada Harmony scholarship application deadline for this coming term is March 1st.

As in the past, if you are submitting a scholarship application, **please send it to Gordon Billows by February 21st so he will have time to review it, give his recommendation, and send it forward to the Scholarship Selection Committee.**

SOME-BUDDIES PROGRAM

Sherrie Bredesen, Facilitator

What do we need to do?

Be available at the beginning of the evening to be enlisted to befriend a guest in your section
WEAR YOUR NAME TAG

Become a FRIEND to a guest, not just someone who “takes care of him/her” for the first evening
Be there each week and stick like glue (almost) for at least several weeks. If you have people to see, make sure he/she is talking to someone who will stay with him/her until you can be back

What does **BE A FRIEND** mean?

- Get to know him/her – music experience, hobbies, interest, skills, etc.
- Tell him/her about yourself too – **BE ENTHUSIASTIC!!!!**
- Be there for him/her on a weekly basis until the guest knows other people and branches off – this may take several weeks – remember that he/she knows no-one, or almost no-one ... yet!
- Introduce him/her to your friends in the chorus so that he/she gets comfortable with them too
- Introduce him/her to those sitting around them
- Always BRING them to others in order to get to know them – never *send them over*.

WHO should he/she meet? **When** and in what order? (USE NAMES FREQUENTLY so that he/she gets used to who they are)

- Membership personnel – does he/she know how to become a member? (this may not be the first question they have but when the time comes that he/she wants to know - Did he/she receive this info?)
- Director, Assistant Director(s), Section Leaders, Music Chair, Treasurer (at some point)
- Other members who are sitting beside or near them

Answer his/her questions:

- Reading Music: Treble or Bass Clef? Stems up or down – which notes should they sing on the music? What do the “X’s” mean on the music? Etc.
- Learning tapes – who will get these for him/her and when?
- When do they get to keep music and take it home to work on? Your membership personnel can answer these questions but you should make sure they are answered as they come up.

Barbershop genre is different from other choruses/choirs - How?

- We have creative license in timing and delivery (Ballads are Ad Lib or have freedom to change time and delivery - "We rob Peter and pay Paul...")
- Wall to wall sound (smooth, legato, with emphasis on vowel sound, which should hit on the Downbeat, with softer consonants.) The *in tune* VOWEL sound is what makes our chords ring!
- The melody is surrounded by harmony parts instead of being on top
- Balance of each part is different and not equal, unlike other choral sound that is equal in volume
- Instead, Barbershop is triangular, Cone-shaped sound with Basses being the broadest, loudest sound, Baritones filling in the place between Lead and Bass with rich resonance, LEAD being predominant as they expressively carry the melody line, and Tenors singing clear and pure (mostly thirds in the chord structure) on top of the melody line
- Our chord structures, when sung correctly with correct notes and matched vowel sounds, will set off a series of higher pitched sounds that are called *OVERTONES*.
- Our music sounds "greater than the sum of its parts" in that the sound expands to sound like many more voices and notes.

WHAT CAN WE DO TO KEEP HIM/HER HAPPILY COMING BACK EACH WEEK?

- **Call the guest the first week and tell him/her how much you enjoyed singing with and getting to know them**
- BE A FRIEND, not just a new buddy. **HE/SHE SHOULD NEVER BE LEFT STANDING OR SITTING ALONE.**
- What, ideally, would you like to have experienced when you were brand new to this chorus?
- Does he/she have transportation to the rehearsal each week? Does the guest live near you or one of our other members? Without putting another member on the spot, see if you can facilitate a ride
- Write down his/her phone number, address, etc. and have it with you each week
- Write down any ideas you might have regarding making this person into a friend
- What should you do if you and the guest just don't "click"? Talk to your Membership rep.
- What do you do if he/she stops coming out? A friend would phone to inquire...
