Ladies:

Please wear Show makeup

Show

On stage, under bright staging lights. Visibility under stage lights is crucial.

Overall, the aim is to create a makeup look that is visible and enhances your features under stage lighting with specific attention to using slightly heavier makeup than usual to prevent being washed out by the lights. . .

* **Foundation:** – one shade darker than your normal skin tone. Be sure to cover your face & down on to the neck area. (Again those pesky lights.)

***Blush:** – Apply blush to your cheeks in a rosy tone. Apply a little heavier than usual, to ensure visibility

***Eyeshadow:** – preferably earth tones, plum tones. These colours tend to complement various skin tones & are visible under stage lights.

***Apply eye liner**

***Apply eyebrow pencil**

Apply mascara – at least 2 coats to upper & lower lashes

***Lipstick:** – Red tones
